

Better BWR-7305

Product Description:Product Features

BETTER BWR-7305 It is a special functional monomer composite modified acrylic lotion specially developed for high-grade matt finish. Adopting multiple self crosslinking core-shell technology, endowing the paint film with superior water resistance, washing resistance, and hardness.

Product Features:

Multiple self crosslinking core-shell structure
Excellent water resistance and primary water resistance
Good stain resistance
Good scrub resistance
Clean taste

Product specifications:

Appearance	Milky white liquid
Solid content, %	34 ± 1
PH	8.0 ± 1
Viscosity, MPa. s, 25 °C	10000-20000
Volatile substances	Water
Minimum film-forming temperature, °C	27
Dry film appearance	Transparent high hardness film

Application scope:

Matte finish paint

Formula recommendations

In order to achieve better film formation at room temperature, it is necessary to add film forming aids or plasticizers to the formula of Better BWR-7305

Recommended film forming aids such as alcohol ester twelve (Texas), dipropylene glycol butyl ether (DPnB), dipropylene glycol methyl ether (DPM), etc

Packaging specifications and storage:

50kg, 120kg/barrel

In a cool and ventilated place with a temperature above 0 degrees Celsius, in an original sealed container, with a shelf life of 6 months
